

### **Changes in hotfix v5.5.3**

- Fix: when creating a new opportunity for an existing Contact/Company the company field is not populated.

### **Changes in hotfix v5.5.2**

- Fix: when performing a mail merge to multiple contacts and having elected to save a copy of every merged Word document the application saves the word document in the 'Letters' folder directly rather than in the sub-folder for the relevant contact. (fixed in v5.5.2)
